A WHITE WINE WITH THE HEART OF A RED

From Sant Martí vineyards' best garnacha tinta branches, we make our Clos Viló Blanc de Noirs, the winery's first white wine made with red grapes. The joining of two opposing personalities in a single wine, a faithful reflection of Priorat's duality; of the juxtaposition between culture and nature, between the spiritual and the earthly, between the fruit's warmth and the slate's frigidity. Because only from conflict can the extraordinary be born.
